NOTICE TO THE MARKET

MARCOPOLO SA., with head offices in Caxias do Sul, RS is announcing that its joint venture company, GB Polo, in Egypt, in which it holds 49% stake, has temporarily shut down its production activities due to the popular protests currently taking place in the country. Despite being located in the industrial zone in Suez, far from the demonstrations, transportation to the factory of workers who live in Cairo has been compromised. As a precaution, the three Brazilians who work at this site are being repatriated.

GB Polo, according a statement released by the Company on December 17, 2010, expects to consolidate the production of 600 buses in 2011, of a total of 1,200. It should be mentioned that revenues from this unit represented less than 1% of Marcopolo's consolidated net revenues in 2010. Management believes there is no need to revise this forecast.

Caxias do Sul, February 1, 2011
